

This new category was created to offer the largest collection of prints from florals, ikats, geometrics and damasks to ticking stripes, houndstooth and gingham checks. The first 4 book collection in this category will not disappoint. With almost 200 skus in 67 patterns there's a print and colour for any décor.

The theme for this 4-book collection is Season's, books **Spring, Summer, Fall & Winter** were influenced by the seasons as the colours and patterns speak to the characteristics of each season. Fun bright colors in Spring ignite a feeling of rejuvenation while Summer's water colours offer a calming feeling. Fall's changing foliage evokes time for change and Winter's moody greys creates a restful atmosphere.
